HISTORY & POLITICAL SCIENCE Core Competencies

Learning Outcome:

Critical Thinking: Students will be able to examine, critique and synthesize information in order to arrive at reasoned conclusions.

Outcome Measure:

ETS Proficiency Profile Exam

Criteria for Success (how do you judge if the students have met your standards):

75% of the students will be marginal or proficient at Level 2 Reading/Critical Thinking.

Aligned with DQP Learning Areas (circle one or more but not all five):

- 1. Specialized Knowledge
- 2. Broad Integrative Knowledge
- 3. Intellectual Skills/Core Competencies
- 4. Applied and Collaborative Learning, and
- 5. Civic and Global Learning

Longitudinal Data:

	Percentage of Students Marginal or Proficient					
	2012-13 2013-14 2014-15 2015-16 2016-17					
ETS Proficiency Profile Level 2 Critical Thinking	N/A	N/A	88.9%	80.0%	78.9%	

Conclusions Drawn from Data:

Our HPS students are performing well with regard to this learning outcome, as more than ¾ of our students are "marginal" or "proficient." And while we are concerned about the percentage decrease over the last two years, we believe that the decline is less about declining skill and more a reflection of an increased sample size in 2016-17. In the last couple of years, we have made an effort to increase the number of students taking the ETS test, thus the 2014-15 percentage was probably not an accurate representation due to the small number of students taking the test at that time.

Changes to be Made Based on Data:

None at this time, other than to monitor the longitudinal data.

Assessment Data Political Science Outcome #4

Learning Outcome:

Political Science PLO #4: Demonstrate Social Scientific Information Literacy (core competency #3).

Outcome Measure:

Papers written in an upper division political science course taken during the students' final academic year. The longitudinal data reflect assessment completed on the final course papers written by all enrolled political science seniors in POL 370 (*Comparative Politics*) in spring 2016 and POL 455 (*Protest and Social Movements in World Politics*) in spring 2015.

Criteria for Success (if applicable):

Average score of 2.75 out of 4.0 (on a scale of 1-4 with 1 being low) in each of the areas:

- Determine the Extent of Information Needed
- Access the Information Needed.
- Evaluate Information and its Sources Critically
- Use Information Effectively to Accomplish a Specific Purpose
- Access and Use Information Ethically and Legally

Access and Use	3.7	3.7	3.6

Conclusions Drawn from Data:

Our students are performing well in all criteria. However, we would like to continue to hone these skills in our students, pushing them to a greater level of mastery by their senior year. In

particular, we would like to help them with information and source evaluation and information application.

Changes to be Made Based on Data:

Continue to emphasize the importance of analyzing assumptions and critically evaluating academic sources. We will do this by continuing to assign more annotated bibliographies that ask students to critically assess the academic literature. We will also consider some team-based projects that have students collaboratively evaluating the academic literature.

Types of information (sources) selected directly relate to concepts or answer research question.	Defines the scope of the research question or thesis completely. Can determine key concepts. Types of information (sources) selected relate to concepts or answer research question.	Defines the scope of the research question or thesis incompletely (parts are missing, remains too broad or too narrow, etc.). Can determine key concepts. Types of information (sources) selected partially relate to concepts or answer research question.	Has difficulty defining the scope of the research question or thesis. Has difficulty determining key concepts. Types of information (sources) selected do not relate to concepts or answer research question.
Access the Needed Information	Accesses information using effective, well-designed search strategies and most appropriate information sources.	Accesses information using variety of search strategies and some relevant information sources. Demonstrates ability to refine search.	Accesses information using simple search strategies, retrieves information from limited and similar sources.	Accesses information randomly, retrieves information that lacks relevance and quality.
Evaluate Information and its Sources Critically	Thoroughly (systematically and methodically) analyzes own and others' assumptions and carefully evaluates the relevance of contexts when presenting a position.	Identifies own and others' assumptions and several relevant contexts when presenting a position.	Questions some assumptions. Identifies several relevant contexts when presenting a position. May be more aware of others' assumptions than one's own (or vice versa).	Shows an emerging awareness of present assumptions (sometimes labels assertions as assumptions). Begins to identify some contexts when presenting a position.

Assessment Data Political Science Outcome #6

Learning Outcome:

Political Science PLO #6: Demonstrate oral communication abilities, particularly to convey complex ideas, recognize diverse viewpoints, and offer empirical evidence of an argument.

Outcome Measure:

Assessment was completed on video résumés submitted by senior political science students. The longitudinal data reflect assessment completed on final student presentations in POL 435 (Global Governance) in fall 2014.

Criteria for Success (if applicable):

Average score of 2.75 out of 4.0 (on a scale of 1-4 with 1 being low) in each of the areas:

- Organization
- Language
- Delivery
- Complexity
- Diverse Viewpoints
- Empirical Evidence
- Central Message

Aligned with DQP Learning Areas (circle one or more):

- 1. Specialized Knowledge
- 2. Broad Integrative Knowledge
- 3. Intellectual Skills/Core Competencies
- 4. Applied and Collaborative Learning, and
- 5. Civic and Global Learning

Longitudinal Data (numbers represent the average score for all seniors):

	Spring 2017	Fall 2014
Organization	4.0	2.8
Language	3.0	3.3
Delivery	2.0	3.17
Complexity	3.0	N/A
Diverse Viewpoints	N/A	N/A
Empirical Evidence	4.0	3.3
Central Message	4.0	3.0

Conclusions Drawn from Data:

This was the first year that we asked our students to do a video résumé, thus we were aware that we would need to work out some kinks. Indeed, our numbers are strong, but this is largely driven by a low N – only one student submitted a video. In subsequent years, we will work with our students on expectations, deadlines, and the ways in which they can benefit from having a video résumé ready to go.

Changes to be Made Based on Data:

Have in-person discussions with our students about the "why" behind a video résumé.
