Conclusions Drawn from Data:

The seniors in each program met the 70% criteria for success with the exception of Nutrition and Food that received a 62%.

Changes to be Made Based on Data:

Full time faculty will review and evaluate in fall 2017 workshop the scores for each program. Careful review of each question with a high percentage of wrong answers will lead to a discussion of how to best meet needs of students in pedagogy and curricular changes. Particular focus will be on Nutrition and Health scores that have been low two years in a row.
