DIANA SJOSTROM

I have 32 years experience in private practice treating people struggling with depression, anxiety and stress related illnesses. I also have been counseling couples, families and pre-marital relationships. I am a certified Bioenergetic Analyst. I understand how the body is the outer-expression of the unconscious and how this can be related to health and relationship issues in marriage. I work with individuals and couples to find resolution to unresolved emotional and thinking conflicts. I apply the Christian understanding of marriage to give a strong spiritual dimension to healing and conflict resolution. My goal is to help people learn to be authentic genuine members of the "Body of Christ".

I am also an adjunct Professor of Psychology at Point Loma Nazarene University, San Diego, California.
