<u>Child Welfare and Attendance Certificate</u> <u>Multiple Year Assessment Plan</u> <u>2011-12</u>

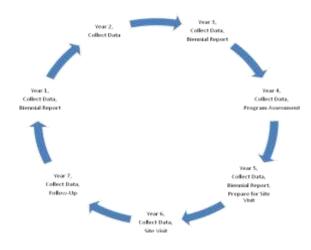

Each year, the California Commission of Teacher Credentialing (CTC) requires universities offering credentials to undertake a thorough review of the assessment processes and procedures to ensure program quality and ongoing improvement. The recursive CTC seven year program improvement cycle and accreditation cycle provide the structure for this ongoing, in depth, internal and external review process.

The following table lists the activities of the accreditation cycle. All data collected are disaggregated by program and regional center, and ultimately leads to the development of the CTC required program assessments and biennial reports. Based upon the findings of these CTS studies and reports, the programmatic changes and improvements are implemented to improve candidate performance, program quality, and program operations.

CTC Accreditation Cycle

Methods of Assessment and Criteria for Success

Currently, assessment data is collected through internal and external sources. Focus groups representing staff, faculty, clinical supervisors, and advisory councils have worked together to discern a set of balanced assessment measures. They are listed below. All candidates are expected to be at the "proficient level of performance with a score of "3" or above in each rubric criteria. The assessments are listed below.

1. Coursework Assessments

Using TaskStream as the primary data storage system, the program collects key assessments known as Signature Assignments to gauge candidates' progress throughout their course of study and ensure Commission on Teacher Credentialing (CTC) program standards are met. Each Signature Assignment is evaluated using a supporting rubric. Annually, (end of each academic year), collected data is disaggregated by regional center and analyzed with results informing areas for program improvement.

- **Signature Assignment:** In GED 645, The Laws and Professional Role of Child Welfare and Attendance Counselors, candidates are equipped with the knowledge of federal laws pertaining to child welfare and attendance. Emphasis is on candidates acquiring the skills and knowledge necessary to provide staff development and implement school-wide effective prevention and intervention strategies to promote student success. The Signature Assignment requires candidates to respond to a case study demonstrating their knowledge and understanding of laws relating to minors.
- Signature Assignment: In GED 646A and GED 646B, Child Welfare and Attendance Program: Leadership, Management, Collaboration, and Community/Partnerships, candidates are provided with the knowledge and skills to collaborate with schools, law enforcement, child welfare, parents, and community agencies in order to implement effective strategies and programs that improve student attendance. In GED 646 candidates demonstrate their knowledge in addressing laws relating to minors from a leadership perspective in a Signature Assignment research paper.
- Signature Assignment: In GED 647, School Culture and Addressing Barriers to Student Achievement, candidates are equipped to address issues impeding "high-risk" students in the areas of academic/social and behavioral success. Candidates gain knowledge of the education code and/or expellable violations, ethical and legal issues, and appropriate responses to site administration, parent/guardian, and student(s). The Signature Assignment requires candidates to design a "Charter School" utilizing evidence-based programs for identified "high-risk" students in grades 7-12. There are twenty students in each grade level for a total of 120 students. The students can be referred through the LEAs, Department of Probation, the courts, DCFS, SARB and/or parents.

2. Dispositions Assessments

Each CWA candidate will have four opportunities to be assessed and track their growth on the Dispositions of Noble Character throughout the program. All Disposition assessments

and the *CWA Professional Growth Chart* will be completed on Taskstream. In GED 645, candidates will complete a self-assessment and in GED 646 and GED 647 professors will assess (candidates must ask the professor within the first week of class) candidates on the Disposition criterion. The final Disposition assessment will be completed by the primary Site-Supervisor during the candidate's fieldwork (GED 688). After each assessment, candidates will complete a phase on the *CWA Professional Growth Chart*. Candidates who receive a 1-2 rating from a professor or Site-Supervisor must meet with the professor and PPS Program Director to discuss the growth plan in the identified Disposition.
