MTH362 Calculus Based Statistics RS 236 MWF 10:55 am-12:05 pm, Quad I

Instructor: Greg Crow, Ph.D. Office: Rohr Science 220 Office Hours: Email: gregcrow@pointloma.edu Phone: 619.849.2604

Course Description

A first course in descriptive and inferential statistics for general students who have taken calculus. Topics include experimental design, sampling and sampling distributions, point estimation and hypothesis testing supported by the use of statistical software.

Class Learning Outcomes:

Students will be able to compute measures of central tendency for data. Students will be able to compute measures of dispersion for data. Students will be able to use statistical methods to make inferences from data.

Required Materials

- Calculator: A scientific calculator is recommended
- Textbook: Baldi and Moore, The Practice of Statistics in the Life Sciences, 3rd Edition. (Hardback ISBN 978-1-4641-7536-7, Looseleaf 978-1-4641-7534-3)

Homework

The homework is designed to allow you to grasp the concepts of Statistics; it is not an end in itself. Assignments will be announced on Monday, Wednesday and Friday. The work will be due on the following Friday. The problems from the text may be submitted as a hard copy or may be submitted by e-mail in Excel format.

Examinations

There will be one Mid-Quad exam and a comprehensive Final exam. No examination shall be missed without an official excuse. A score of zero will be assigned for an exam that is missed without an official excuse. The <u>exam schedule</u> is included in the <u>daily schedule</u>. I do not intend to accept excuses such as poor communication with parents and/or travel agents.

Project

There will be a two-person research project to be described in class. Portions of the project will be due throughout the semester. This will give you experience applying the skills we have learned.

Grading Policies

Grades will be weighted in the following manner: Midterm Exam (30%) Final Exam (40%)

Homework (20%) Project (10%)

Grading Scale in percentages B С D Α +(87.5, 90)(77.5, 80)(67.5, 70)[92.5, 100] [82.5, 87.5] [72.5, 77.5] [62.5, 67.5] [90, 92.5) [80, 82.5)[70, 72.5] [60, 62.5)

Approximate minimal percentages required to obtain a given grade are:

Other factors that affect grades are

- Late work. A written assignment or computer assignment is late if it is not received at the beginning of class on the due date. Late work need not be accepted. Work accepted late may be assessed a penalty. Make-up tests (or the exam) will be given only by arrangement with the instructor for reasons of documented emergency.
- **Questions on written assignments and exams:** Written assignments and test/exam questions and problems must be formulated carefully in terms of words and symbols used in the course. Credit is determined by the degree to which answers and solutions respond to the specific question or problem stated. Maximize your credit by learning the language and symbols of the course.
- **Format for Written Assignments**. Assignments collected must be prepared in a style suitable for grading. The following guidelines are used to determine credit:
 - \circ the organization must be easy to follow
 - the work must be legible
 - complete solutions must be written for problems (not just answers); solutions must be clearly marked
 - use complete sentences to answer questions
- **Exams and Final Examination**. The Mid-Quad Exam and the Final Exam will include problems and questions over material assigned in the text, readings and handouts, as well as material presented in class.

Attendance Policy

Attendance is expected at each class session. In the event of an absence you are responsible for the material covered in class and the assignments given that day.

Regular and punctual attendance at all classes in which a student is registered is considered essential to optimum academic achievement. Therefore, regular attendance and participation in each course are minimal requirements to be met. There are no allowed or excused absences except as approved in writing by the Provost for specific students participating in certain university-sanctioned activities. Excused absences still count toward the 10%-20% limits, but allow students to make up work, quizzes, or tests missed as a result of a university-sanctioned activity. Activities of a unique nature, such as labs or other activities identified clearly on the syllabus, cannot be made up except in rare instances when instructors have given advanced, written approval for doing so. Whenever the number of accumulated absences in a class, for any cause, exceeds ten (10) percent of the total number of class meetings, the faculty member should send an e-mail to the student and the Vice Provost for Academic Administration (VPAA) warning of attendance jeopardy. If more than twenty (20) percent of the total number of class meetings is reported as missed, the faculty member or VPAA may initiate the student's de-enrollment from the course without further advanced notice to the student. If the date of de-enrollment is past the last date to withdraw from a class, the student will be assigned a grade of W

or WF consistent with university policy in the Grading section of the catalog. There are no refunds for courses where a de-enrollment was processed. For more details see the PLNU catalog: http://catalog.pointloma.edu/content.php?catoid=14&navoid=1089#Class_Attendance

After you miss the equivalent of 2 class periods, you will be warned of impending de-enrollment. If you miss the equivalent of 5 class periods, you will be de-enrolled.

Class Enrollment:

It is the student's responsibility to maintain his/her class schedule. Should the need arise to drop this course (personal emergencies, poor performance, etc.), the student has the responsibility to follow through (provided the drop date meets the stated calendar deadline established by the university), not the instructor. Simply ceasing to attend this course or failing to follow through to arrange for a change of registration (drop/add) may easily result in a grade of F on the official transcript.

Academic Accommodations:

While all students are expected to meet the minimum academic standards for completion of their courses as established by the instructors, students with special needs may require academic accommodations. At Point Loma Nazarene University, students requesting academic accommodations must file documentation with the Disability Resource Center (DRC), located in the Bond Academic Center. Once the student files documentation, the Disability Resource Center contacts the student's instructors and provides written recommendations for reasonable and appropriate accommodations to meet the individual needs of the student. This policy assists the university in its commitment to full compliance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities (ADA) Act of 1990, and ADA Amendments Act of 2008, all of which prohibit discrimination against students with special needs and guarantees all qualified students equal access to the benefits of PLNU programs and activities. For more details see the PLNU catalog: http://catalog.pointloma.edu/content.php?catoid=14&navoid=1089#Academic_Accommodations

Students with learning disabilities who may need accommodations should discuss options with the instructor during the <u>first two weeks</u> of class.

Academic Honesty:

The Point Loma Nazarene University community holds the highest standards of honesty and integrity in all aspects of university life. Any violation of the university's commitment is a serious affront to the very nature of Point Loma's mission and purpose. Violations of academic honesty include cheating, plagiarism, falsification, aiding academic dishonesty, and malicious interference. The details of PLNU's meaning of each of these words can be found in the PLNU catalog at:

http://catalog.pointloma.edu/content.php?catoid=14&navoid=1089#Academic_Honesty

A student remains responsible for the academic honesty of work submitted in PLNU courses and the consequences of academic dishonesty beyond receipt of the final grade in the class and beyond the awarding of the diploma. Ignorance of these catalog policies will not be considered a valid excuse or defense. Students may not withdraw from a course as a response to a consequence.

A student who is caught cheating on any item of work will receive a zero on that item and may receive an "F" for the semester. See the PLNU Catalog for a further explanation of the PLNU procedures for academic dishonesty (<u>http://catalog.pointloma.edu/content.php?catoid=14&navoid=1089#Academic_Honesty</u>).

Final Exam: Date and Time

The final exam date and time is set by the university at the beginning of the semester and may not be changed by the instructor. Only in the case that a student is required to take three exams during the same day of finals week is an instructor authorized to change the exam date and time for that particular student.

Copyright Protected Materials

Point Loma Nazarene University, as a non-profit educational institution, is entitled by law to use materials protected by the US Copyright Act for classroom education. Any use of those materials outside the class may violate the law.

The Final Exam is a **Comprehensive** Examination.
