Good afternoon Summer GESC,

We have two items needing our attention. The first is a catalog item regarding the timing of adding a class. The second item is a reapplication for H.N. I have the necessary attachments attached. Please send your questions or vote after you've had time to review the materials. As a reminder, the petition has a 3-business day turn-around, which would mean next Thursday around noon (given the Monday holiday).

Thanks all,

Holly

Good Evening Summer GESC Members,

Please find attached a graduate petition for FM that is in need of your review and vote. Please note that we set the limit at three business days to reply. If we don't have a quorum by three days, the decision is left to the GESC chair. Thank you in advance for your review and vote on this.

Blessings,

Kim

Student Petition for Acceptance Under Existing Standards

YES: 5

NO: 0

Motion action: Motion to approve under existing standards carried.

Good morning GESC,

We have one petition for you to review. The supporting materials are attached. Please note that this is a request to modify the petition policy in order to review the student, so there are two levels of discussion here. I'll be out of the office tomorrow for a week. If the committee would prefer to meet face-to-face I can ask Cindy to set this up once I'm back in town. We already have a need for this given some non-substantive proposals coming to us, so we can add this to the mix, if you'd like.

Please respond to all as to your preference for handling this particular request - face-to-face or via email. If the majority would like to handle this via email, Mark, as Interim Chair, will follow up with you. Otherwise, we'll wait until we can meet together.

Thanks much,

Holly
