

Master of Science in Occupational Therapy Program

OCC 6011, Mental Health Conditions, Assessments, and Interventions

OCC 6011L, Mental Health Conditions, Assessments, and Interventions Lab

Number of Units: OCC 6011: 4 credit units; OCC 6011L: 1 credit unit

Spring 2026

Meeting days/times: Tuesdays, 4:30-7:00 pm; Thursdays, 8:00-10:00 am

Meeting location: Balboa, Room 251

Final Report: Thursday May 7th by 11:59pm

Information	Specifics for the Course
Instructor title and name:	Professor Kimberly Mathis, MSOT, OTR/L
Phone:	N/A
Email:	kmathis@pointloma.edu
Office location and hours:	Virtual/in-person as requested; email your faculty

PLNU Mission

To Teach ~ To Shape ~ To Send

Point Loma Nazarene University exists to provide higher education in a vital Christian community where minds are engaged and challenged, character is modeled and formed, and service is an expression of faith. Being of Wesleyan heritage, we strive to be a learning community where grace is foundational, truth is pursued, and holiness is a way of life.

Course Description

OCC 6011 Mental Health Conditions, Assessments, and Interventions (4 Units)

In this course, students explore common mental health conditions following the DSM-V and applicable occupational therapy practice frameworks. Emphasis is on the impact of mental health conditions on occupational performance and participation across the lifespan. The role of OT in mental health in traditional and role emerging settings and the impact of reimbursement systems on the provision of services are additional topics covered. Students will learn and apply client-centered occupational therapy assessments, evidenced-based interventions, and principles of documentation which meet reimbursement requirements. Corequisite(s): OCC 6011L

OCC 6011L Mental Health Conditions, Assessments, and Interventions Lab (1 Unit)

Students will apply knowledge gained in OCC 6011 to the administration of standardized assessments, development of initial evaluations and treatment plans, and analysis of occupational performance for individuals with mental health disorders. Corequisite(s): OCC 6011

Relationship of Course to Curriculum Design

This course is the 1st in a 2-part series on mental health conditions. It is taken concurrently with the following courses: OCC 6008 (Applied Human Movement); OCC 6008L: Applied Human Movement Lab; ANA 6009 (Applied Neuroanatomy); OCC 6045: Level I Fieldwork-A: Mental Health Learning Community; OCC 6016: Healthcare Systems and Professional Documentation; OCC 6019: Patient Skills Management; OCC 6019L: Patient Skills Management Lab. This course supports the curricular thread of occupation. The foundational knowledge gained in the course prepares students to succeed in pediatric/adolescent, adult/older adult orthopedic, and adult/older adult neurologic application courses.

Program and Course Learning Outcomes

This course contributes to the acquisition of skills and knowledge necessary for achievement of the following program learning outcomes:

Program Learning Outcomes

PLO # 1: Use critical reasoning to provide evidence-based occupational therapy services across the lifespan, in a variety of service delivery models, health care settings, and community-based systems.

PLO # 3: Provide services within a client-centered and occupation-based framework, with consideration of contextual factors which influence a persons', groups' and/or populations' ability to engage in meaningful occupational tasks and roles.

Course Learning Outcomes

Course learning outcomes used are ACOTE Standards and students will be using concepts and skills that will be introduced and/or be expected to master.

1. Demonstrate knowledge of concepts of human behavior to include the behavioral sciences, social sciences, and science of occupation (B.1.1 in part).

2. Apply and analyze the role of sociocultural, socioeconomic, and diversity, equity, and inclusion factors, as well as lifestyles in contemporary society to meet the needs of persons, groups, and populations. Course content must include, but is not limited to, introductory psychology, abnormal psychology, and introductory sociology or introductory anthropology. (B.1.2)
3. Demonstrate knowledge of the social determinants of health for persons, groups, and populations with or at risk for disabilities and chronic health conditions and distinguishes the epidemiological factors that impact the public health and welfare of populations. (B.1.3)
4. Explain the process of theory development and its importance to occupational therapy (B.2.2 in part).
5. Analyze the effects of disease processes including heritable diseases, genetic conditions, mental illness, disability, trauma, and injury on occupational performance (B.2.6).
6. Demonstrate activity analysis in areas of occupation, performance skills, performance patterns, context(s) and environments, and client factors to formulate the intervention plan (B.2.7).
7. Demonstrate therapeutic use of self, including one's personality, insights, perceptions, and judgments, as part of the therapeutic process in both individual and group interaction. (B.3.1)
8. Demonstrate professional reasoning to evaluate, analyze, diagnose, and provide occupation-based interventions to address client factors, performance patterns, and performance skills (B.3.2).
9. Evaluate client(s)' occupational performance, including occupational profile, by analyzing and selecting standardized and non-standardized screenings and assessment tools to determine the need for occupational therapy intervention(s). Assessment methods must take into consideration cultural and contextual factors of the client. Interpret evaluation findings of occupational performance and participation deficits to develop occupation-based intervention plans and strategies. Intervention plans and strategies must be client centered, culturally relevant, reflective of current occupational therapy practice, and based on available evidence (B.3.3).
10. Select and apply assessment tools, considering client needs, and cultural and contextual factors. Administer selected standardized and non standardized assessments using appropriate procedures and protocols. Interpret the results based on psychometric properties of tests considering factors that might bias assessment results (e.g., culture and disability status related to the person and context) (B.3.4).
11. Design and implement intervention strategies to remediate and/or compensate for functional cognitive deficits, and psychosocial and behavioral health deficits that affect occupational performance (B.3.6 and B.3.9).
12. Assess, grade, and modify the way persons perform occupations and activities by adapting processes, [and] modifying environments, to reflect the changing needs of the client, sociocultural context, and technological advances (B.3.8).
13. Evaluate and discuss mechanisms for referring clients to specialists both internal and external to the profession, including community agencies (B.3.17).
14. Evaluate access to community resources to support occupational performance for persons, groups, and populations (B.3.20).
15. Develop a plan for discharge from occupational therapy services in collaboration with the client and members of the interprofessional team by reviewing the needs of the client, caregiver, family, and significant others; available resources; and discharge environment (B.3.10).

16. Demonstrate knowledge of various reimbursement systems and funding mechanisms (e.g., federal, state, third party, private payer), appeals mechanisms, treatment/diagnosis codes (e.g., CPT®, ICD, DSM® codes), and coding and documentation requirements that affect consumers and the practice of occupational therapy. Documentation must effectively communicate the need and rationale for occupational therapy services (B.4.3).
17. Identify, analyze, and evaluate the contextual factors; current policy issues; and socioeconomic, political, geographic, and demographic factors on the delivery of occupational therapy services for persons, groups, and populations to promote policy development and social systems as they relate to the practice of occupational therapy (B.4.1).

Required Texts and Recommended Study Resources

NOTE: Students are responsible to have the required course textbooks prior to the first day of class. Students are also encouraged to begin reading the books in preparation for the class as soon as possible.

1. American Occupational Therapy Association (2020). Occupational therapy practice framework: Domain and process (4th ed.). *American Journal of Occupational Therapy*, 74(Suppl.2), 7412410010. <https://doi.org/10.5014/ajot.2020.74S2001>.

2. Brown, C., Muñoz, J., & Stoffel, V. (2025). Occupational Therapy for Mental Health (3rd ed.). F. A. Davis Company. <https://fadavisreader.vitalsource.com/books/9781719654135>

Course Credit Hour Information Ⓢ

Note: Online and blended classes only. Fill in the blanks.

In the interest of providing sufficient time to accomplish the stated Course Learning Outcomes, this class meets the PLNU credit hour policy for a 5 unit class delivered over 16 weeks. Specific details about how the class meets the credit hour requirement can be provided upon request.

Assessment and Grading

Grading will be based on the PLNU grading scale below. Grades will be rounded down from .1-.4; and rounded up from .5 to .9.

Assignment Distribution by Percentage:

Guided	Reading	Worksheets	–	15%
Individual Quizzes – 10%				
Team	Quizzes		–	10%

Midterm Presentations – 20%

Final Evaluation and Treatment Plan – 35%

Professionalism & Lab Participation – 10%

PLNU Grading Scale:

A=93-100	B-=80-82	D+=67-69
A-=92-90	C+=77-79	D=63-66
B+=87-89	C=73-76	D-=60-62
B=83-86	C-=70-72	F=0-59

Grade Intervention Plan

Scoring below a letter grade of a C (73%) in any didactic course is not considered to be a passing grade.

All students must develop a remediation plan if their grades do not meet the expected threshold. A remediation plan is a cooperative effort between the student, course instructor, and the faculty advisor to establish specific learning activities and plan to ensure competency and successful progression in the program.

Potential consequences of the above may include any of the following:

- Need to repeat a Level II or Level III clinical competency.
- Inability to take the next course in a sequence for which this course is a prerequisite.
- Academic warning.
- Academic probation.
- Need to join the next cohort of students.

Refer to the OT Student Handbook, found on the MSOT Program website for more information.

Content Warning

I acknowledge that each of you comes to PLNU with your own unique life experiences. This contributes to the way you perceive various types of information. In OCC 6011/6011L, all of the class content, including that which may be intellectually or emotionally challenging, has been intentionally curated to achieve the learning goals for this course. The decision to include such material is not taken lightly. These topics include discussion of trauma, abuse, self-harm, suicide, psychosis, substance use, grief, loss, and systemic injustices that affect mental health. If you encounter a topic that is intellectually challenging for you, it can manifest in feelings of discomfort and upset. In response, I encourage you to come talk to me or your friends or family about it. Class topics are discussed for the sole purpose of expanding your intellectual

engagement in the area of the practice of Occupational Therapy, and I will support you throughout your learning in this course.

Trigger Warning

I acknowledge that each of you comes to PLNU with your own unique life experiences. This contributes to the way you perceive several types of information. In OCC 6011, we will cover a variety of topics, some of which you may find triggering. These topics include discussion of trauma, abuse, self-harm, suicide, psychosis, substance use, grief, loss, and systemic injustices that affect mental health. Each time this topic appears in a reading or unit, it is marked on the syllabus. The experience of being triggered versus intellectually challenged are different. The main difference is that an individual must have experienced trauma to experience being triggered, whereas an intellectual challenge has nothing to do with trauma. If you are a trauma survivor and encounter a topic in this class that is triggering for you, you may feel overwhelmed or panicked and find it difficult to concentrate. In response, I encourage you to take the necessary steps for your emotional safety. This may include leaving class while the topic is discussed or talking to a therapist at the Counseling Center. Should you choose to sit out on discussion of a certain topic, know that you are still responsible for the material; but we can discuss if there are other methods for accessing that material and for assessing your learning on that material. Class topics are discussed for the sole purpose of expanding your intellectual engagement in the area of the practice of Occupational Therapy, and I will support you throughout your learning in this course.

Incompletes and Late Assignments

All assignments are to be submitted/turned in by the designated due date and time of day, typically 11:59 pm. Each day an assignment is late, your grade will be reduced by 10%. Incompletes will only be assigned in extremely unusual circumstances.

PLNU Spiritual Care

Balboa Campus:

PLNU strives to be a place where you grow as a whole person. To this end, we provide resources for our graduate students to encounter God and grow in their Christian faith. At the Balboa campus, we have an onsite chaplain, Rev. Kevin Portillo, who is available during class break times across the week. If you have questions, a desire to meet or share any prayer requests with Rev. Portillo, you may contact him directly at KevinPortillo@pointloma.edu.

In addition, there is a quiet space for meditation located in the chapel on the second floor.

PLNU Copyright Policy

Point Loma Nazarene University, as a non-profit educational institution, is entitled by law to use materials protected by the US Copyright Act for classroom education. Any use of those materials outside the class may violate the law.

PLNU Recording Notification

In order to enhance the learning experience, please be advised that this course may be recorded by the professor for educational purposes, and access to these recordings will be limited to enrolled students and authorized personnel.

Note that all recordings are subject to copyright protection. Any unauthorized distribution or publication of these recordings without written approval from the University (refer to the Dean) is strictly prohibited.

PLNU Academic Honesty Policy

Students should demonstrate academic honesty by doing original work and by giving appropriate credit to the ideas of others. Academic dishonesty is the act of presenting information, ideas, and/or concepts as one's own when in reality they are the results of another person's creativity and effort. A faculty member who believes a situation involving academic dishonesty has been detected may assign a failing grade for that assignment or examination, or, depending on the seriousness of the offense, for the course. For all student appeals, faculty and students should follow the procedures outlined in the University Catalog. See [Graduate Academic and General Policies](#) for definitions of kinds of academic dishonesty and for further policy information.

During the first week of class, you will be asked to submit an Academic Honesty Verification Statement. Submitting the statement is a requirement of this course. By submitting the Academic Honesty Verification Statement, you will be verifying all assignments completed in this course were completed by you. Carefully review the Academic Honesty Statement below.

Statement: "In submitting this form, I am verifying all the assignments in this course will be completed by me and will be my own work."

Artificial Intelligence (AI) Policy

You are allowed to use Artificial Intelligence (AI) tools (e.g., ChatGPT, Gemini Pro 1.5, GrammarlyGo, Perplexity, etc.) to generate ideas, but you are not allowed to use AI tools to generate content (text, video, audio, images) that will end up in any work submitted to be graded for this course. If you have any doubts about using AI, please gain permission from the instructor.

[APA Style: How to Cite ChatGPT](#)

PLNU Academic Accommodations Policy

PLNU is committed to providing equal opportunity for participation in all its programs, services, and activities in accordance with the Americans with Disabilities Act (ADA). Students with disabilities may request course-related accommodations by contacting the Educational Access Center (EAC), located in the Bond Academic Center (EAC@pointloma.edu or 619-849-2533). Once a student's eligibility for an accommodation has been determined, the EAC will work with the student to create an Accommodation Plan (AP) that outlines allowed accommodations. Professors are able to view a student's approved accommodations through Accommodate.

PLNU highly recommends that students speak with their professors during the first two weeks of each semester/term about the implementation of their AP in that particular course. Accommodations are not retroactive so clarifying with the professor at the outset is one of the best ways to promote positive academic outcomes.

Students who need accommodations for a disability should contact the EAC as early as possible (i.e., ideally before the beginning of the semester) to assure appropriate accommodations can be provided. It is the student's responsibility to make the first contact with the EAC. Students cannot assume that because they had accommodations in the past, their eligibility at PLNU is automatic. All determinations at PLNU must go through the EAC process. This is to protect the privacy of students with disabilities who may not want to disclose this information and are not asking for any accommodations.

Language and Belonging

Point Loma Nazarene University faculty are committed to helping create a safe and hospitable learning environment for all students. As Christian scholars we are keenly aware of the power of language and believe in treating others with dignity. As such, it is important that our language be equitable, inclusive, and prejudice free. Inclusive/Bias-free language is the standard outlined by all major academic style guides, including MLA, APA, and Chicago, and it is the expected norm in university-level work. Good writing and speaking do not use unsubstantiated or irrelevant generalizations about personal qualities such as age, disability, economic class, ethnicity, marital status, parentage, political or religious beliefs, race, gender, sex, or sexual orientation. Inclusive language also avoids using stereotypes or terminology that demeans persons or groups based on age, disability, class, ethnicity, gender, race, language, or national origin. Respectful use of language is particularly important when referring to those outside of the religious and lifestyle commitments of those in the PLNU community. By working toward precision and clarity of language, we mark ourselves as serious and respectful scholars, and we model the Christ-like quality of hospitality.

If you (or someone you know) have experienced other forms of discrimination, you can find more information on reporting and resources at www.pointloma.edu/nondiscrimination.

Sexual Misconduct and Discrimination

In support of a safe learning environment, if you (or someone you know) have experienced any form of sexual discrimination or misconduct, including sexual assault, dating or domestic violence, or stalking, know that accommodations and resources are available through the Title IX Office at pointloma.edu/Title-IX. Please be aware that under Title IX of the Education Amendments of 1972, faculty and staff are required to disclose information about such misconduct to the Title IX Office.

If you wish to speak to a confidential employee who does not have this reporting responsibility, you can contact Counseling Services at counselingservices@pointloma.edu or find a list of campus pastors at pointloma.edu/title-ix or as shown in the PLNU Spiritual Care section of this syllabus.

If you (or someone you know) have experienced other forms of discrimination or bias, you can find more information on reporting and resources at www.pointloma.edu/bias

PLNU Course Modality Definitions

1. Online Courses: These are courses with class meetings where all instruction and interaction is fully online.
 - a. Synchronous Courses: At least one class meeting takes place at a designated time.
 - b. Asynchronous Courses: All class meetings are asynchronous.
2. Hybrid Courses: These are courses with class meetings that take place both in the classroom and online synchronously and/or asynchronously.
3. In-Person Courses: These are courses that meet in person with the instructor and students in a physical classroom setting. With approval by the area dean, this may include up to 25% of qualified class interactions through a Learning Management System (such as Canvas).

PLNU Attendance and Participation Policy

Regular and punctual attendance at all class sessions is considered essential to optimum academic achievement. Therefore, regular attendance and participation in each course are minimal requirements.

If the student is absent for more than 10 percent of class sessions, two classes for a 16-week course and 1 class for a quad course, the faculty member will issue a written warning of de-enrollment. If the absences exceed 20 percent, the student may be de-enrolled without notice until the university withdrawal date or, after that date, receive an “F” grade.

Students who anticipate being absent for a class should contact the instructor prior to the anticipated absence for approval to miss the class. Acceptable absences include illness, family emergencies, family deaths, and/or a significant life event impacting ability to attend class. Students are to develop a plan with the course faculty to complete the required coursework and/or complete alternative assignments assigned. Acceptance of late work and/or absences which do not meet the "acceptable criteria" is at the discretion of the instructor and does not waive attendance requirements.

Refer to [Academic Policies](#) for additional detail.

Synchronous Attendance/Participation Definition

For synchronous courses that have specific scheduled meeting times (including in-person, hybrid, and synchronous online courses), absences are counted from the first official meeting of the class regardless of the date of the student's enrollment. For courses with specific attendance requirements, those requirements are outlined in the course syllabus.

Use of Technology

In order to be successful in the online or hybrid environment, you'll need to meet the minimum technology and system requirements; please refer to the [Technology and System Requirements](#) information. Additionally, students are required to have headphone speakers, microphone, or webcams compatible with their computer available to use. Please note that any course with online proctored exams requires a computer with a camera (tablets are not compatible) to complete exams online.

Problems with technology do not relieve you of the responsibility of participating, turning in your assignments, or completing your class work.

GPS Academic Resources

PLNU offers the following free academic resources virtually for Graduate Professional Studies (GPS) Students. Visit myPLNU through the links below for more information.

- **The GPS Writing Center** offers:
 - **Zoom Writers Workshops** offered each quad on a variety of helpful topics
 - **One-to-one appointments** with the Writing Coach
 - **Microlearning YouTube Video Library** for helpful tips anytime
 - **Research Help Guide** to help you start your research
 - The physical office is located on the third floor of the **Mission Valley Regional Center** off the student lounge
- **Academic Writing Resources Course**: Found on your Canvas Dashboard, this course is non-credit with 24/7 access, no time limits, and self-paced content. **Watch a quick video run-through** and take time now to explore!
- **Grammarly**: Students have unlimited FREE access to Grammarly for Education, a trusted tool designed to help enhance writing skills by providing real-time feedback, identifying areas for improvement, and providing suggestions. Grammarly’s Generative AI is NOT available with our student accounts.
- **Tutoring**: Students have access to 24/7 live or scheduled subject tutoring through Tutor.com, including a Paper Drop-Off Service with feedback within 12 hours.

We are here to support you! Contact us anytime: GPSWritingCenter@pointloma.edu

Assignments At-A-Glance

The course summary below lists our assignments and their due dates. Click on any assignment to review it.

Course Learning Objectives (ACOTE 2023 Standards): At the conclusion of this course, students will be able to:	Curricular Threads	Course Instructional Objective	Student Learning Activities	Assessment of Student Learning
B.1.1 (in part), B.1.2, B.2.2 (in part) — Demonstrate knowledge of human behavior and theory in OT	Underserved Populations, Occupation-Based Treatment	1. Explain how behavioral sciences, human development, and sociocultural factors influence occupation and mental health	Assigned readings, Guided Reading Worksheets (GRWs), quizzes	GRWs, individual quizzes, midterm

B.1.3, B.2.6 — Analyze disease processes, trauma, and public health impacts	Underserved Populations, Community Service	1. Explain how behavioral sciences, human development, and sociocultural factors influence occupation and mental health	Assigned readings, GRWs, lecture content, quizzes	GRWs, individual quizzes, midterm
B.2.7, B.3.6, B.3.9 — Conduct activity analysis and design interventions for psychosocial/cognitive deficits	Occupation-Based Treatment	2. Apply professional reasoning to evaluate and interpret client factors and contextual influences	In-class activities, in-class activities, team quizzes	Lab participation, midterm, Final Evaluation and Treatment Plan
B.3.1 — Demonstrate therapeutic use of self in group and individual interactions	Interdisciplinary Collaboration	4. Demonstrate therapeutic use of self in the planning and discussion of group and individual interventions	Team quizzes, in-class activities, GRWs	Team quizzes, GRWs, Lab participation
B.3.2, B.3.3, B.3.4 — Use reasoning to select and interpret assessments	Occupation-Based Treatment, Underserved Populations	2 & 3. Apply reasoning and interpret assessments to support client-centered practice	Lecture content, assigned readings, in-class activities, Final Evaluation and Treatment Plan	Lab participation, quizzes, Final Evaluation and Treatment Plan
B.3.10, B.3.8 — Grade/modify tasks and plan for discharge	Occupation-Based Treatment, Interdisciplinary Collaboration	3. Select and administer assessments and use findings to guide planning	In-class activities, quizzes, Final Evaluation and Treatment Plan	Lab participation, Final Evaluation and Treatment Plan

B.3.17, B.3.20 — Refer and evaluate access to community resources	Community Service, Underserved Populations	5. Integrate systems-level and community-based care into OT practice	Lecture content, GRWs, midterm, in-class activities	Midterm, Final Evaluation and Treatment Plan
B.4.1 — Identify/evaluate contextual and policy factors	All threads	5. Integrate systems-level and community-based care into OT practice	GRWs, assigned readings, in-class activities, Final Evaluation and Treatment Plan	GRWs, Quizzes, Final Evaluation and Treatment Plan
B.4.3 — Documentation, coding, and reimbursement in mental health OT practice	Interdisciplinary Collaboration	6. Apply documentation and funding knowledge to support OT service delivery and advocacy	GRWs, lecture content, in-class activities, quizzes	Quizzes, Final Evaluation and Treatment Plan
