Assessment Plan: Biology-Chemistry B.S. Majors

Overview: PLO 1, 2, 3, 4, 5 will be assessed yearly; PLO 6 will be assessed every 1 and 5 years.

PLO 1: Students will demonstrate an understanding of the process of science, and of the concepts and theories of biology across a broad range of organizational levels: molecular, cellular, and organismal.

This PLO will be measured directly via summative assessment during the senior year. Students will take the ETS Major Fields Test in Biology as part of the capstone course in biology, Biology 497, Biology Seminar.

<u>Criteria for success</u>: The overall group mean on the ETS exam will be at or above the 75^{th} percentile and at least 50% of our students will have an overall score at or above the 60^{th} percentile. Additionally, the same criteria established for the overall ETS score will be applied to each of 3 sub-disciplines, which are *Cell, Genetic & Molecular, and Organismal*.

<u>Rubric</u>: ETS Comparative Data Guides – MFT for Biology

PLO 2: Students will apply key concepts and principles in quantitative analysis, biochemistry, bioinorganic chemistry, organic chemistry, and physical chemistry (thermodynamics and kinetics).

This PLO will be measured directly via summative assessment during the senior year. Students will take the ETS Major Fields Test in Chemistry as part of the capstone course in chemistry, Chemistry 495 (Chemistry Seminar). This PLO will also be measured indirectly via self-reporting on a senior exit survey (see below) administered in the capstone courses in biology (Biology 497, Biology Seminar) and chemistry (Chemistry 495, Chemistry Seminar).

<u>Criteria for success</u>: The overall group mean on each subsection of the ETS exam (Analytical, Biochemistry, Inorganic, Organic, Physical) will be at or above the 50th percentile. At least 80% of students surveyed will feel prepared or better in meeting this PLO.

<u>Rubric</u>: ETS Comparative Data Guides – MFT for Chemistry

PLO 3: Students will use standard instrumentation and laboratory equipment to conduct scientific experiments and perform chemical characterization and analyses.

This PLO will be measured directly via faculty laboratory instructors' observation of their students' use of various standard instruments in different courses (see below). This PLO will

also be measured indirectly via self-reporting on a senior exit survey (see below) administered in the capstone courses in biology (Biology 497, Biology Seminar) and chemistry (Chemistry 495, Chemistry Seminar).

GC: Chemistry 304 (Organic Chemistry II) IR: Chemistry 304 (Organic Chemistry II) UV-vis: CHE325 (Physical Chemistry I)

<u>Criteria for success</u>: At least 80% of students will be able to use each of the various instruments with little or no guidance. At least 80% of students surveyed will feel prepared or better in meeting this PLO.

Instrument	4	3	2	1
GC (CHE304)	Able to use	Able to use	Able to use	Unable to use
	instrument	instrument with	instrument with	instrument even
	independently.	little guidance. guidance.		with guidance.
IR (CHE304)	Able to use	Able to use	Able to use	Unable to use
	instrument	instrument with instrument with		instrument even
	independently.	little guidance.	guidance.	with guidance.
UV-vis (CHE325)	Able to use	Able to use	Able to use	Unable to use
	instrument	instrument with instrument with		instrument even
	independently.	little guidance.	guidance.	with guidance.

<u>Rubric</u>: The following scale will be used.

PLO 4: Students will participate in the life of the Biology and/or Chemistry Department by involvement in one or more of the following areas: research, biology and/or chemistry clubs, and/or various positions of responsibility serving as graders, tutors, stockroom workers and/or teaching assistants.

This PLO will be measured indirectly via summative assessment during the senior year. Students will self-report their involvement in research, science clubs, and positions of responsibility as part of the capstone courses in biology (Biology 497, Biology Seminar) and chemistry (Chemistry 495, Chemistry Seminar). This PLO will also be measured indirectly via self-reporting on a senior exit survey (see below) administered in the capstone courses in biology (Biology 497, Biology Seminar) and chemistry (Chemistry 495, Chemistry Seminar) and chemistry (Chemistry Seminar).

<u>Criteria for success</u>: At least 80% of our students will participate in one or more department related activities (research, science clubs, positions of responsibility) during their time at PLNU. At least 80% of students surveyed will feel prepared or better in meeting this PLO.

<u>Rubric</u>: Not applicable.

PLO 5: Students will develop a rationally defensible integration of science and faith.

This PLO will be measured directly via summative assessment during the senior year. Students will defend the integration of their faith with various scientific topics via a written essay as part of the capstone course in biology, Biology 497, Biology Seminar.

<u>Criteria for success</u>: At least 80% of our students will achieve a score of 85% or higher on the science/faith integration essay. The essay will be scored with a rubric that considers science/faith integration, critical thinking, integration of concepts from other classes, written communication, and information literacy.

Rubric: See below.

PLO 6: Students will be prepared for post-graduate studies or science-related careers.

This PLO will be measured directly via data collection of school acceptances or jobs obtained. This PLO will be measured indirectly via self-reporting on an alumni survey (see below). This PLO will also be measured indirectly via self-reporting on a senior exit survey (see below) administered in the capstone courses in biology (Biology 497, Biology Seminar) and chemistry (Chemistry 495, Chemistry Seminar).

<u>Criteria for success</u>: Success rates for alumni who apply for graduate or professional schools will be >75% and the percentage of graduates who obtain jobs in science-related occupations will be >70%. At least 80% of students surveyed will feel prepared or better in meeting this PLO.

<u>Rubric</u>: Not applicable.

Grading aspect	poor	developing	good	expert
Integration of	There is no	Some integration	Obvious evidence of	\rightarrow deep personal reflection is evident
science and	indication of	of science and	reflection on the	\rightarrow clear and well-defended position
faith	personal	faith. Evidence of	integration of science and	that merges faith and scientific
(evolution or	reflection	clear and deep	faith, but the author is	reasoning
environmental	and thought	reflection is not	only marginally effective	(note: the exact position is not
stewardship)	into the	very apparent,	at defending his/her	important, but rather the evidence of
sterrar aship)	integration	and the position	position.	reflection, understanding, and ability
	of faith and	taken is not well-	poortion	to defend that position)
	science.	defended.		
Critical thinking	Position is	Position is weakly	Fairly strong support of	\rightarrow Issue is stated clearly
ci icicui ciining	not	defended	the argument. Alternate	\rightarrow Position is well-supported with
	defended	ucicitucu	positions are addressed	evidence and sources.
	uciciliaca	Other, perhaps	and the author's own	\rightarrow Alternate positions are clearly
	There is no	conflicting,	position is supported	addressed in a manner that flows well
	reference to	positions on this	against these positions,	with the author's argument
	any other	issue are	full understanding of	\rightarrow Clear arguments against these
	position on	mentioned, but	other positions was not	alternate positions using personal
	this issue.	are poorly	apparent, and a strong	reflection and scientific information
	uns 155uc.	addressed	argument against them	\rightarrow Evaluation of altering positions
		auuresseu	did not emerge.	demonstrate grace and understanding
Incorporation	No concepts	Concepts and	Concepts and discussion	\rightarrow Concepts from specific PLNU
of concepts	or	discussions from	from specific PLNU classes	classes, including science and religion
discussed in	discussions	specific PLNU	are included and	classes, are included as part of the

	revision.	not provide for	length	\rightarrow sufficient length to make a good,
	(Essay is	sufficient support.	iciigui	complete defense (estimated ~1200 –
	(Essay is <800	summer support.		1600 words; can be less if essay is
	 words) 			sufficiently and concisely supported)
Information	Includes no	Includes 1 – 2	Includes 3-4 appropriate	\rightarrow Includes 4-5 or more appropriate
literacy			sources. Includes some	sources, including sources of more
incraty	appropriate sources. No	appropriate sources. In-text	references in the text that	than one type (websites, books,
	in-text	references show	are incorporated into the	articles, etc.).
	references.	little connection	essay well.	\rightarrow Includes substantial references in
	reierences.		cssay well.	
		5		the text that enhance the essay and
		Quotes are overly		support the author's argument. \rightarrow paraphrasing is done well and
		used or long.		\rightarrow paraphrasing is done well, and
				quotes (when appropriate) are used
				correctly, but not overly frequently.

Chemistry Seminar Exit Survey 2015 (Biology-Chemistry Major)

1) What is your current career goal?

- a) Professor
- b) Teacher
- c) Health professional please specify
- d) Biotechnology or pharmaceutical industry
- e) Academic or government lab
- f) Graduate student please specify field or specialty
- g) Other please specify

2) Rank how well prepared you were to meet the following program learning outcomes (goals) that were set for your major.

I. Students will demonstrate an understanding of the process of science, and of the concepts and theories of biology across a broad range of organizational levels: molecular, cellular, and organismal.

unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

II. Students will apply key concepts and principles in quantitative analysis. unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

III. Students will apply key concepts and principles in biochemistry. unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

IV. Students will apply key concepts and principles in bioinorganic chemistry. unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

V. Students will apply key concepts and principles in organic chemistry. unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

VI. Students will apply key concepts and principles in physical chemistry (thermodynamics and kinetics).

unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

VII. Students will use standard instrumentation and laboratory equipment to conduct scientific experiments and perform chemical characterization and analyses. unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

VIII. Students will participate in the life of the Biology and/or Chemistry Department by involvement in one or more of the following areas: research, biology and/or chemistry clubs, and/or various positions of responsibility serving as graders, tutors, stockroom workers and/or teaching assistants.

unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

IX. Students will develop a rationally defensible integration of science and faith.

unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

X. Students will be prepared for post graduate studies or a science-related career. unprepared / somewhat unprepared / prepared / well prepared / extremely well prepared

- 3) Were you involved in the PLNU chemistry summer research program?
 - a) Yes describe what role this experience played in your learning of chemistry
 - b) No describe why not
- 4) Do you have any suggestions related to the summer research program?
- 5) What were one or two aspects of the chemistry curriculum that might have been improved?
- 6) Do you feel prepared to take the next step academically?
 - a) Yes describe what experiences (classes) helped you to get there
 - b) No describe what additional or different experiences would have helped

7) If you were starting over as a freshman next fall, would you make any different decisions about your major, or about elective course choices, etc.?

8) Are there chemistry courses that PLNU does not offer that you would have liked to take?

9) Do you feel like you are a part of the chemistry department community? Why or why not?

Alumni Survey 2015

The Biology and Chemistry Departments would greatly appreciate your feedback as a PLNU alum on your experience as a Biology or Chemistry major. This 15-question survey should take about 15 minutes to complete. If you provide your email address, we will also enter you into a drawing for one of three \$100 Amazon cards as a thank you for your time!

- 1) What year did you graduate from PLNU?
- 2) What was your major?
 - a) Biology-BA
 - b) Biology-BS
 - c) Chemistry
 - d) Biology-Chemistry
 - e) Environmental Science
- 3) What is your highest degree earned?
 - a) BA/BS
 - b) MA/MS
 - c) PhD
 - d) MD/DO
 - e) PA
 - f) DDS
 - g) DVM
 - h) OD
 - i) PharmD
 - j) Other please specify
- 4) What is your current professional situation?
 - a) Professor
 - b) Teacher
 - c) Health professional
 - d) Biotechnology or pharmaceutical industry
 - e) Academic or government lab
 - f) Graduate student please specify field or specialty
 - g) Other please specify
- 5) Rank how well we prepared you to meet the following goals that were set for your major. (Only PLOs for specified major selected in #2 will appear.)
 - a) Unprepared
 - b) Somewhat unprepared
 - c) Prepared

- d) Well prepared
- e) Extremely well prepared
- 6) Were you involved in the PLNU biology or chemistry summer research programs?
 - a) Yes describe how this experience is impacting your career.
 - b) No
- 7) Which classes or experiences do you appreciate more now as opposed to when you had just graduated?
- 8) Is there any course, topic, or skill you've repeatedly encountered that you wish you had been taught at PLNU? Please explain.
- 9) If you are pursuing a career in environmental science, do you wish you had substituted an internship experience for a science elective while you were at PLNU?
 - a) I am not pursuing a career in environmental science.
 - b) I did an internship.
 - c) Yes, I wish I had done an internship while at PLNU.
 - d) No, I did not need to do an internship while at PLNU.

Comments?

- 10) Do you wish you had taken any of the following options at PLNU?
 - a) BIO130/140 (Human Anatomy & Physiology)
 - b) Upper-division anatomy class
 - c) No, I didn't need an Anatomy class

Comments?

- 11) What were one or two aspects of the biology curriculum that might have been improved to better prepare you for your profession or for further studies?
- 12) What were one or two aspects of the chemistry curriculum that might have been improved to better prepare you for your profession or for further studies?
- 13) Have you done any of the following? Check all that apply.
 - a) Recommended PLNU to a prospective student
 - b) Promoted PLNU to another person
 - c) Been involved with the alumni association
 - d) Donated to Research Associates
 - e) Other please specify.

- 14) Since you left PLNU, have you ever had a conversation in which you had to integrate Christian faith with scientific knowledge? Did you feel prepared scientifically? Did you feel prepared theologically? Check all that apply. Please describe the situation and your feelings about your preparation.
 - a) I've never had such a conversation.
 - b) I felt prepared scientifically.
 - c) I didn't feel prepared scientifically.
 - d) I felt prepared theologically.
 - e) I didn't feel prepared theologically.
- 15) Since you left PLNU, have you made any decisions that were influenced by your knowledge of creation care and sustainability? If so, did you feel prepared to make those decisions from a scientific understanding of sustainability?
 - a) I do not tend to make decisions based on sustainability considerations.
 - b) I often feel unprepared to make those decisions as it is rarely clear to me which options would best benefit the planet.
 - c) I usually feel prepared to make those decisions as I am generally confident in my understanding of how my choices affect, and which options are best for, the planet.
 - d) I feel very comfortable in my scientific knowledge of how various decisions will affect the earth, either negatively or positively.
- 16) Please provide your email address to be entered into the drawing for an Amazon gift card. Your email address will not be associated with your responses on this survey.
