## Scale Used:

0 Unsatisfactory - Completely Incorrect
1 Low Satisfactory - Missed more than one key concept or step
2 Satisfactory - Missed one key concept or step
3 High Satisfactory - Made a minor error
4 Outstanding - Completely correct

Criteria for Success: Average sample score of 2.5 or higher for each problem

## Comments:

The question that we have been using to assess \#1 for MTH144 and MTH164 has varried over time. It has produced inconsistent results. We will be changing this question to an interest problem which more closely matches one of the questions in the MTH303 assessment for \#1.
