If unforeseen circumstances arise, the hour requirement may be reduced a minimum of 40 hours for each unit in line with the university policy. Detailed information on hour requirement per number of registered units is listed below:

In situations where a student elects to volunteer for one of our approved agencies before the start date of the semester or after the end date of the semester, no oversight of the student's experience will be provided by the Department of Psychology. Past employment or volunteer work may not be used for retroactive credit. Students will not receive credit for the course under the following circumstances:

- Failure to attend any meetings without prior permission from the instructor.
- Failure to complete required internship hours.
- Failure to complete required assignments.
- Failure to complete required evaluations.

University Policies:

1. **Educational Goals:** An internship or practicum must be part of an approved major or concentration within an academic department. Students must meet all prerequisites before participating. Each academic department offering internships or practicums for academic credit will clearly define the educational goals for these programs in written form. Learning objectives/career goals for the student and specific expectations from the internship or practicum site must stem from these educational goals.

2. **Locations:** Internship and practicum locations must be selected in collaboration with the department and appropriate faculty supervisor. Supervisor may call or visit site. Educational goals and accompanying expectations of the student must be agreed upon by the agency or business in order for it to qualify as an approved site. When needed, legal rights and liabilities of the student of the site and of the University will be clearly stated and agreed to in writing before the beginning of the experience.

3. **Remuneration:** Traditionally PLNU academic internships and practicum assignments have not been paid positions. It was believed that the agency in which the student was placed was not to be considered the employer, but it was to serve as a partner in an educational experience for pre-professionals. As workplace policies have changed and liability concerns have arisen, the paid internship model has become common practice. If an internship includes payment for services (i.e., minimum wage, etc.), this must be stated in writing by the agency or business providing the paid internship. These conditions must be approved by the supervising academic department prior to the first day of the internship experience. Students may not use current employment locations to count for credit unless the workplace also qualifies under the previously stated PLNU educational policies, and a specific assignment is agreed upon. This determination must be made in consultation with the faculty supervisor. Past employment or volunteer work may not be used for retroactive credit. It remains the goal that agencies and businesses will be located by the academic departments and will participate with the University to provide valuable educational experiences, whether paid positions or not. Non-paid experiences can be mutually beneficial to both the sponsoring agency and the student, particularly if they are less encumbered by profit expectations. Students should be encouraged by faculty supervisors to pursue non-paid experiences with equal enthusiasm as with paid positions.

Final Examination Policy:

Successful completion of this class requires taking the final examination on its scheduled day. The [Final Exam Schedule](#) is available online.

Attendance and Participation Policy:

Regular and punctual attendance at all classes is considered essential to optimum academic achievement. If the student is absent for more than 10 percent of class meetings, the faculty member can file a written report which may result in de-enrollment. If the absences exceed 20 percent, the student may be de-enrolled without notice until the university drop date or, after that date, receive

the appropriate grade for their work and participation. A complete description of the [Academic Policies](#) can be found in the Undergraduate Academic Catalog.

Course Credit Hour Information:

Following the [PLNU Credit Hour Policy](#), to meet the identified student learning outcomes of this course, the expectations are that this 3-4 unit course, delivered over a 15 week semester will approximate 3-4 hours/week classroom or direct faculty instruction. In addition, out of class student work will approximate a minimum of 6-8 hours each week. Specific details about how the class meets the credit hour requirement can be provided upon request.

Academic Honesty Policy:

Students should demonstrate academic honesty by doing original work and by giving appropriate credit to the ideas of others. Academic dishonesty is the act of presenting information, ideas, and/or concepts as one's own when in reality they are the results of another person's creativity and effort. A faculty member who believes a situation involving academic dishonesty has been detected may assign a failing grade for that assignment or examination, or, depending on the seriousness of the offense, for the course. Faculty will follow and students may appeal using the procedures in the University Catalog. See the [Academic Policies](#) for definitions of kinds of academic dishonesty and for further policy information.

Academic Accommodations:

While all students are expected to meet the minimum standards for completion of this course as established by the instructor, students with disabilities may require academic adjustments, modifications, or auxiliary aids/services. At Point Loma Nazarene University (PLNU), these students are requested to register with the [Disability Resource Center \(DRC\)](#), located in the Bond Academic Center (DRC@pointloma.edu or 619-849-2381). The DRC's policies and procedures for assisting such students in the development of an appropriate academic adjustment plan (AP) allows PLNU to comply with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act. Section 504(a) prohibits discrimination against students with special needs and guarantees all qualified students equal access to and benefits of PLNU programs and activities. After the student files the required documentation, the DRC, in conjunction with the student, will develop an AP to meet that student's specific learning needs. The DRC will thereafter email the student's AP to all faculty who teach course in which the student is enrolled each semester. The AP must be implemented in all such courses. If students do not wish to avail themselves of some or all of the elements of their AP in a particular course, it is the responsibility of those students to notify their professor in that course. PLNU highly recommends that DRC students speak with their professors during the first two weeks of each semester about the applicability of their AP in that particular course and/or if they do not desire to take advantage of some or all of the elements of their AP in that course. Students may find additional support through other campus offices as well including the [Office of Spiritual Development](#), the [Tutorial Center](#), and/or the [Wellness Center](#).

Point Loma Nazarene University, as a non-profit educational institution, is entitled by law to use materials protected by US Copyright Act for classroom education. Any use of those materials outside of the class may violate the law. More information on the [PLNU Copyright Policy](#) can be found online.
