

**Sped Mod/Severe Preliminary Credential**  
**Evidence of Candidate Learning**  
**Summer 2014**

For each year of the assessment cycle, data is collected through internal and external sources. These assessment measures are aligned with the Mission and Vision of the University as well as with the respective CTC standards. (Please see Candidate Learning Outcomes and Curriculum Maps for this alignment.)

Using Taskstream as the primary data storage system, the program analyzes assessment data biennially to gauge candidates' progress throughout their course of study and ensure CTC program standards are met. This evidence of candidate learning is reported in the CTC Biennial Report. (Please see the Biennial Report 2012-14 in Points of Distinction for actual data tables citing evidence of student learning.)

In the analysis, strengths and areas for improvement are identified to include: a) candidate competence; and b) program effectiveness. Based upon the findings, the programmatic changes and improvements are implemented to improve candidate performance, program quality and program operations.

**Analyses and Discussion of Candidate and Program Data**

**CalTPA for Moderate/ Severe Education Specialist Candidates**

Criteria	Strengths	Areas for Improvement
Task 1	No data reported.	No data reported.
Task 2	The candidates gave considerable effort to learning about their students. The candidates are receiving solid exposure to and practice of how to design effective instruction. 75% of our candidates passed this task on the 2 <sup>nd</sup> attempt. The average mean score was only 2.87/4	Our program needs to continue encouraging the practice of making appropriate instructional and content adaptations to meet the needs of students.
Task #3	Candidates are gaining proficiency in planning developmentally appropriate activities and reflecting on evidence of student learning based on those assessments. 60% of our candidates passed this task on the 1st attempt; 100% on the 2 <sup>nd</sup> attempt.	Candidates continue to be challenged in making adaptations to their instruction, content, and assessment in the effort to meet the needs of their English Learners and children who pose different learning challenges.

Task #4	The criteria in Task 4 became one of the higher scoring criteria. Candidates passed this task on the first attempt, with an average mean score of 3.21/4	Candidates are in the final clinical practice experience and they continue to be challenged with developing appropriate adaptations to meet the learning needs of all students.
