<b>Signature Assignments for GED 703: Modules A-F</b>	Because of the systematic efforts to revise the assessment plan for the 2015-2016 academic year, the small numbers of students with which to collect data (less than ten), and the need to gather more data to determine efficacy, there are no changes to be made based on this data for the following year. During the 2016-2017 academic year, data for Professional Administrative Services credential candidates completing GED 703 Modules A-F will be gathered, and analysis efforts will be undertaken by the Program Director and faculty.
