BACCALAUREATE SOCIAL WORK PROGRAM**

ASSESSMENT OF STUDENT LEARNING OUTCOMES

**2018 Report¹
as of June 1, 2018**

CSWE Accreditation Standard AS 4. B

4.0.2 *The program provides summary data and outcomes for the assessment of each of its competencies, identifying the percentage of students achieving the benchmark.*

4.0.4 *The program uses Form AS 4 (B) to report assessment outcomes to its constituents and the public on its website and routinely up-dates (minimally every 2 years) these postings.*

All Council on Social Work Education programs measure and report student learning outcomes. Students are assessed on their mastery of the competencies that comprise the CSWE accreditation standards. These competencies are dimensions of social work practice that all social work professional training. A benchmark is set by the social work programs for each competency. An assessment score at or above that benchmark is considered by the program to represent mastery of that particular competency.

NOTES:

- (1) This report is as of June 1, 2018 with scores for 10 of the 13 cohort included. Three students are completing the remainder of field placement hours during summer. As a result, final evaluations are not yet available. An updated report will be prepared in September 2018.
- (2) Given the small number of cases included in the report, the performance of one student consistently impacted outcomes. As a result most outcome scores were down from 2017. Absent this student, the data for the remainder of the cohort would have compared favorably with 2017.
- (3) In addition to these competency measures, the PLNU program prepares a supplemental report for foundational knowledge content and basic academic capacities for oral language, written communication, and critical thinking. The results of the CSWE Instruments will be compared with other measures to assess and identify areas where curriculum adjustment is needed.
