Schedule Changes

The information in this syllabus is subject to change. I will announce changes in class early enough to give you time to meet assignments, etc. It is your responsibility to maintain your schedule, making the changes as necessary. I will not consider class absence as an excuse for not keeping your schedule updated.

Additional Learning Resources:

Text bundles purchased through the PLNU Bookstore and online at Cengage.com contain codes for accessing additional learning resources, including self-quizzes, flash cards and instructional videos on the publisher's website.

PLNU Copyright Policy

Point Loma Nazarene University, as a non-profit educational institution, is entitled by law to use materials protected by the US Copyright Act for classroom education. Any use of those materials outside the class may violate the law.

PLNU Academic Honesty Policy

Students should demonstrate academic honesty by doing original work and by giving appropriate credit to the ideas of others. Academic dishonesty is the act of presenting information, ideas, and/or concepts as one's own when in reality they are the results of another person's creativity and effort.

A faculty member who believes a situation involving academic dishonesty has been detected may assign a failing grade for that assignment or examination, or, depending on the seriousness of the offense, for the course. Faculty should follow and students may appeal using the procedure in the university Catalog.

[See Academic Policies](#) in the PLNU Catalog for definitions of kinds of academic dishonesty and for further policy information.

PLNU Academic Accommodations Policy

PLNU is committed to providing equal opportunity for participation in all its programs, services, and activities. Students with disabilities may request course-related accommodations by contacting the Educational Access Center (EAC), located in the Bond Academic Center (EAC@pointloma.edu or 619-849-2486). Once a student's eligibility for an accommodation has been determined, the EAC will issue an academic accommodation plan ("AP") to all faculty who teach courses in which the student is enrolled each semester.

PLNU highly recommends that students speak with their professors during the first two weeks of each semester/term about the implementation of their AP in that particular course and/or if they do not wish to utilize some or all of the elements of their AP in that course.

Students who need accommodations for a disability should contact the EAC as early as possible (i.e., ideally before the beginning of the semester) to assure appropriate accommodations can be provided. It is the student's responsibility to make the first contact with the EAC.

PLNU Attendance and Participation Policy

Regular and punctual attendance at all synchronous class sessions is considered essential to optimum academic achievement. If the student is absent for more than 10 percent of class sessions (virtual/remote or face-to-face), the faculty member will issue a written warning of de-enrollment. If the absences exceed 20 percent, the student may be de-enrolled without notice until the university drop date or, after that date, receive the appropriate grade for their work and participation.

Use of Technology

In order to be successful in your course, you'll need to meet the minimum technology and system requirements; please refer to the [Technology and System Requirements](#) information.

Additionally, students are required to have headphone speakers, microphone, or webcams compatible with their computer available to use for any online or hybrid classes. Please note that any course with online proctored exams require a computer with a camera (tablets are not compatible) to complete exams online. If a student is in need of technological resources please contact student-tech-request@pointloma.edu. Problems with technology do not relieve you of the responsibility of participating, turning in your assignments, or completing your class work.

When am I EVER going to use this information...?

Many of you probably have signed up for this class only as a means of fulfilling a requirement for your major/minor. Therefore the logical question is: When am I EVER going to use this information?

In addition, you may be overwhelmed and fearful having heard horror stories about accounting classes. However, I am here because I love teaching and love the problem-solving and the analytical skills that accounting integrates that I learned through thirty years of practical experience as a professional accountant.

Therefore, my primary goal this semester is to provide you with a safe, yet challenging, learning environment that will help you develop those skills that will help you contribute to and add value to any business endeavor.

What is accounting?

Accounting is the language of business. It is a way of tracking and analyzing **PAST** financial transaction so that you can make better and more informed decisions about **FUTURE** transactions.

Who uses accounting?

Almost everyone uses some form of accounting every day in his or her professional or personal life.

Beyond the essential business applications, it is the foundation for calculating the cost of a trip, purchasing a home or car, determining available cash, maintaining a budget, even preparing your income taxes.

Lastly, accounting information is used in any university course involved with evaluating financial decisions.
