PLNU MISSION

To Teach ~ To Shape ~ To Send

Point Loma Nazarene University exists to provide higher education in a vital Christian community where minds are engaged and challenged, character is modeled and formed, and service becomes an expression of faith. Being of Wesleyan heritage, we aspire to be a learning community where grace is foundational, truth is pursued, and holiness is a way of life.

COURSE DESCRIPTION

In this course, we will explore the social aspects of aging and how aging impacts our lives and those around us, as well as communities, nations and the world. Students will gain insight into the social determinants of the human life course, including the biological and sociodemographic dimensions of aging. Sociological theories in the field of aging, and the ways in which the experience is socially constructed will be explored. Students will examine how the United States and other countries will be challenged by “aging societies” and the effects of this change—positive and negative—for individuals, families, employers, community service providers, and public policy.

INSTITUTIONAL LEARNING OUTCOMES (ILO)

PLNU SPIRITUAL CARE

PLNU strives to be a place where you grow as a whole person. To this end we provide resources for our Graduate students to encounter God and grow in their Christian faith. We have an onsite chaplain, Rev. Gordon Wong, at the Mission Valley (MV) campus to service Graduate students at the Mission Valley and Balboa Campuses. Rev. Gordon Wong is available during class break times across the week. If you have questions for, desire to meet or share a prayer request with Rev. Wong you can contact him directly at mvchaplain@pointloma.edu (<mailto:mvchaplain@pointloma.edu>) or gordonwong@pointloma.edu (<mailto:gordonwong@pointloma.edu>). Rev. Wong's cell number is 808-429-1129 if you need a more immediate response.

In addition, on the MV campus there is a prayer chapel on the third floor which is open for use as a space set apart for quiet reflection and prayer.

PLNU COPYRIGHT POLICY

Point Loma Nazarene University, as a non-profit educational institution, is entitled by law to use materials protected by the US Copyright Act for classroom education. Any use of those materials outside the class may violate the law.

PLNU ACADEMIC HONESTY POLICY

Students should demonstrate academic honesty by doing original work and by giving appropriate credit to the ideas of others. Academic dishonesty is the act of presenting information, ideas, and/or concepts as one's own when in reality they are the results of another person's creativity and effort. A faculty member who believes a situation involving academic dishonesty has been detected may assign a failing grade for that assignment or examination, or, depending on the seriousness of the offense, for the course. Faculty should follow and students may appeal using the procedure in the university Catalog. See the [Academic Honesty Policy \(https://catalog.pointloma.edu/content.php?catoid=54&navoid=3048#Academic_Honesty\)](https://catalog.pointloma.edu/content.php?catoid=54&navoid=3048#Academic_Honesty) in the Graduate and Professional Studies Catalog for definitions of kinds of academic dishonesty and for further policy information.

PLNU ACADEMIC ACCOMMODATIONS POLICY

PLNU is committed to providing equal opportunity for participation in all its programs, services, and activities. Students with disabilities may request course-related accommodations by contacting the Educational Access Center (EAC), located in the Bond Academic Center (EAC@pointloma.edu (<mailto:EAC@pointloma.edu>) or 619-849-2486). Once a student's eligibility for an accommodation has been determined, the EAC will issue an academic accommodation plan ("AP") to all faculty who teach courses in which the student is enrolled each semester.

PLNU highly recommends that students speak with their professors during the first two weeks of each semester/term about the implementation of their AP in that particular course and/or if they do not wish to utilize some or all of the elements of their AP in that course.

Students who need accommodations for a disability should contact the EAC as early as possible (i.e., ideally before the beginning of the semester) to assure appropriate accommodations can be provided. It is the student's responsibility to make the first contact with the EAC.

PLNU ATTENDANCE AND PARTICIPATION POLICY

Regular and punctual attendance at all class sessions is considered essential to optimum academic achievement. If the student is absent for more than 10 percent of class sessions the faculty member will issue a written warning of de-enrollment. If the absences exceed 20 percent, the student may be de-enrolled without notice until the university drop date or, after that date, receive the appropriate grade for their work and participation. See [Academic Policies \(https://catalog.pointloma.edu/content.php?catoid=54&navoid=3048#Academic_Honesty\)](https://catalog.pointloma.edu/content.php?catoid=54&navoid=3048#Academic_Honesty) in the Graduate and Professional Studies Catalog. If absences exceed these limits but are due to university excused health issues, an exception will be granted.

This is a social gerontology course. As such, it is critical to understand that your success, as well as the success of others, is dependent upon participation in activities and assignments. You are expected to attend class and actively contribute to class discussions and activities. Five points are available per class, two for attendance and three for participation.

What is considered "class participation"?

- Raising your hand and answering questions.
- Sharing ideas, observations, and personal experiences.
- Pointing out relevant data.
- Generating potential solutions.
- Relating and synthesizing the ideas of others.
- Pointing out relationships to earlier discussions.
- Helping others develop their views and ideas.

 - Excused reasons for intermittent camera being off: need to use the restroom, may need to protect roommate
- Participate with professor and peers by unmuting OR using the chat.
- Make sure you are in a quiet space (when possible) free of distractions.
- Students will not get participation points if they are driving in a car, at work etc.

TEACHING METHODOLOGY

There are different ways in which to approach the teaching of the same subject area and materials. The focus of this course will be applying the concepts presented in the textbook to practical examples and experiences in the real world. This will be done through contemporary articles from leading sources, class exercises, mini-cases and in-depth cases. The objective is to get students to move past a regurgitation of the materials and to apply what they have learned to solving practical organizational issues that are not often monolithic and are instead integrative and complex.

Not all of the chapter materials will be covered in class; however, students are expected to know all of the materials covered in each chapter on the syllabus and to apply them to graded assignments.

Reading Hooyman & Kiyak text – Critical to your success is that assigned reading is done prior to class in order to do well on quizzes and to promote a rich class time experience to demonstrate you can apply what you have learned.

COURSE REQUIREMENTS

1. **Essay Chapter Quizzes – (240 points/60 points each)**

There are four essay quizzes that cover materials from the textbook, class discussions/lectures.

2. **Multiple Choice Chapter Quizzes - (150 points/6 at 25 points each)**

There are five multiple choice quizzes that cover materials from the textbook, class discussions/lectures.

3. **Senior Interview Paper and Brief Presentation - (100 Points)**

This assignment is aimed at helping you find out more about seniors and their views on aging. Choose a person **at least 65 years old** to interview. It might be a family member, friend, a friend of a friend, someone from your church, or just someone you find interesting. If you choose a relative, please know that your questions may be more difficult and your interviewee may not be as candid as someone you do not know.

You are likely to get more information from your interviewee if you give the person a copy of the questions so he/she has some time to think about the topic. You may want to consider completing the interview over more than 1 session so as not to overwhelm your interviewee and to ensure you are getting full responses. You will be leading the conversation so familiarize yourself with the questions you are going to ask. It's always better to ask the questions in the context of conversation rather than in a checklist fashion.

Below are some possible interview questions and some structure if you need it (You do not have to ask every question on the list - keep in mind your own goals for the interview and what you feel is most important for you to understand about their views on aging).

The goal of this assignment is for you to listen to the stories your interviewee is sharing with you, experience interacting with an older adult, and increase exposure to views on the aging process. Listen carefully, they have much to teach you!

The first part of this assignment is a written summary of your interview and your reflections from the assignment. Consider how this assignment has impacted your own views on the aging process. Your paper should be approximately 3-4 pages in length. APA format is required. You may use first-person when appropriate. Because this is a voluntary interviewee and not a client, you may use his/her name with their permission. If he/she wishes to remain anonymous, choose an alternative name.

The second part of this assignment is a brief synopsis of your interview to the class. This part will be informal, from your seats, and should be about 5 min in length. You will be graded on this part of the assignment as well.

4. **Oral Diagnosis Presentation in Class – (100 points)**

Students will present a diagnosis to the class based on a vignette the student has created which will be used in their Final Case Conceptualization paper assignment. Students will demonstrate critical thinking skills applying a DSM 5 diagnosis based on a neurological, biological, psychological, social, environmental and spiritual lens to identify concerns, goals and treatment strategies based on readings and class discussions/lecture. Expectations are that the student's presentation will be on

in a professional manner, like you are speaking with a treatment team at your agency or hospital during practicum. This information will be an oral assignment, but the material is to be included in the final case conceptualization paper. You will have 10-15 minutes for your presentation.

5. Final Case Conceptualization Paper – 6 pages (150 points)

Students will write a paper presenting a client case study they have created. It will include their client's presenting problem from a neurological, biological, psychological, social, environmental and spiritual lens. A DSM-5 diagnosis is required with a discussion on how case was conceptualized, and the criteria the client presents with for the diagnosis that was determined by the student. Information on antecedents, and a treatment plan (with short, and long-term goals) are necessary. Pertinent knowledge from text readings is expected to be applied to your client's symptomology. Paper will be graded on its clarity and concise manner following APA 7 standards (cover page and reference page with running head expected, no abstract).

Final Case Conceptualization Paper Rubric

Grading Criteria	Maximum Points
Case Conceptualization (client's presentation and symptomology based on a neurological, biological, psychological, social, environmental and spiritual lens)	50
DSM 5 diagnosis and criteria	25
Treatment Plan (short- and long-term goals – 2 each)	25
Cognitive Changes with Aging	10
Personality and Mental Health in Old Age	10
Social Concepts and Supports for Older Adults	10
Application of coursework concepts and critical thinking	10
