

**Sociology, Social Work, and Family Sciences**  
**PLO Data for Child and Adolescent Development (CHAD)**  
**2023-2024**

**Learning Outcome PLO 1:**

Identify and describe normative similarities and differences of physical, cognitive, emotional, and social theories at each development stage from prenatal through adulthood.

**Outcome Measure:**

CHD4020 with the Socialization of Self paper: Students will complete a personal case study on the effects of socialization; discuss the social and behavioral outcomes of socialization in terms of their own development; explain personal attitudes and values and discuss their own sense of self-efficacy and self-esteem; describe the influences on their moral development; explain how their own gender role developed thus far; include the socialization agents and how each has helped to shape who they have become physically, cognitively and socially.

**Criteria for Success (if applicable):**

80% of students will score a three or higher on each criterion of the four-point AAC&U Integrative Learning Rubric

**Aligned with DQP Learning Areas (circle one or more but not all five):**

1. Specialized Knowledge
2. Broad Integrative Knowledge
3. Intellectual Skills/Core Competencies
4. Applied and Collaborative Learning
5. Civic and Global Learning

**Longitudinal Data:**

This outcome will be assessed every fall.

**CHAD PLO 1:** Percentages of student scores using the AAC&U Integrative Learning Value Rubric.

Pink coloring reflects that the benchmark was not met.

**Conclusions Drawn from Data:**

The criterion of 80% was met in mastery or proficient in all categories with the exception of Connection to Discipline which scored a total of 77%. Connections to Experience 85% Transfer: Adapts and Applies 85%, Integrated Communication 85%, Reflection and Self-Reflection 92% however, were lower than in 2022. It was a smaller group of seniors, only 7 and a different professor because the usual professor was on sabbatical. Connection to Discipline is an important skill to be able to integrate knowledge in written

communication and evaluation. This signature assignment is a stronger tool for measuring this outcome. CHD 4020 is the capstone for Child & Adolescent Development majors, and this is the perfect course to assess this outcome.

**Changes to be Made Based on Data:**

The Socialization of Self paper is a significant signature assignment to the CHD program. Careful scaffolding of all components will be implemented. Including additional self-reflection in class activities that focus on making connections to the discipline.

**INTEGRATIVE LEARNING VALUE RUBRIC**

	<b>Capstone (4)</b>	<b>Milestones (3)</b>	<b>Milestones (3)</b>	<b>Benchmark (1)</b>
Connections to Experience: Connects relevant experience and academic knowledge	Meaningfully synthesizes connections among experiences outside of the formal classroom (including life experiences and academic experiences such as internships and travel abroad) to deepen understanding of fields of study and to broaden own points of view.	Effectively selects and develops examples of life experiences, drawn from a variety of contexts (e.g., family life, artistic participation, civic involvement, work experience), to illuminate concepts/theories/frameworks of fields of study.	Compares life experiences and academic knowledge to infer differences, as well as similarities, and acknowledge perspectives other than own.	Identifies connections between life experiences and those academic texts and ideas perceived as similar and related to own interests.
Connections to Discipline: Sees (makes) connections across disciplines, perspectives	Independently creates wholes out of multiple parts (synthesizes) or draws conclusions by combining examples, facts, or theories from more than one field of study or perspective.	Independently connects examples, facts, or theories from more than one field of study or perspective.	When prompted, connects examples, facts, or theories from more than one field of study or perspective.	When prompted, presents examples, facts, or theories from more than one field of study or perspective.
Transfer: Adapts and applies skills, abilities, theories, or methodologies gained in one situation to new situations	Adapts and applies, independently, skills, abilities, theories, or methodologies gained in one situation to new situations to solve difficult problems or explore complex issues in original ways.	Adapts and applies skills, abilities, theories, or methodologies gained in one situation to new situations to solve problems or explore issues.	Uses skills, abilities, theories, or methodologies gained in one situation in a new situation to contribute to understanding of problems or issues.	Uses, in a basic way, skills, abilities, theories, or methodologies gained in one situation in a new situation.
Integrated Communication	Fulfills the assignment(s) by choosing a format, language, or graph (or other visual representation) in ways that enhance meaning, making clear the interdependence of language and meaning, thought, and expression.	Fulfills the assignment(s) by choosing a format, language, or graph (or other visual representation) to explicitly connect content and form, demonstrating awareness of purpose and audience.	Fulfills the assignment(s) by choosing a format, language, or graph (or other visual representation) that connects in a basic way what is being communicated (content) with how it is said (form).	Fulfills the assignment(s) (i.e. to produce an essay, a poster, a video, a PowerPoint presentation, etc.) in an appropriate form.
Reflection and Self-Assessment: Demonstrates a developing sense of self as a learner, building on prior experiences to respond to new and challenging contexts (may be evident in self assessment, reflective, or creative work)	Envisions a future self (and possibly makes plans that build on past experiences) that have occurred across multiple and diverse contexts.	Evaluates changes in own learning over time, recognizing complex contextual factors (e.g., works with ambiguity and risk, deals with frustration, considers ethical frameworks).	Articulates strengths and challenges (within specific performances or events) to increase effectiveness in different contexts (through increased self awareness).	Describes own performances with general descriptors of success and failure.

2023-2024**

**Learning Outcome PLO 2:**

Evaluate the effects of family systems on the development of children and adolescents.

**Outcome Measure:**

CHD4020: Article Critique. Students read a current article about any topic in child development of interest a non-professional magazine, newspaper or online. Then write a summary of the article including facts, findings and any opinions/advice of the author. Students then write their own opinion based on a thorough, critical analysis of the article; addressing the advice given, the opinions and any research given as support for the original article. In their critical evaluation, students must use and cite at least one other article from a professional, peer-edited journal that supports or discredits the article with documented research.

**Criteria for Success (if applicable):**

**Conclusions Drawn from Data:**

This signature assignment was changed as a recommendation from assessment 2019-20. This was the fourth time that this signature assignment was used to assess this outcome. The criterion of 80% was only met in one of the four categories. Use of Information at 88%, Explanation of Issues 79%, Influence of Context 64%, and Conclusion and Related Outcomes 64%. These are the lowest scores in the last four years. This was assessed by two assessors that calibrated together before starting the assessments. This particular signature assignment appeared not to be fully understood by students. This is a small cohort of students #7 in total taught by another professor while the usual professor was on sabbatical. The professor that taught is very skilled and has taught this class on ADC side. In full disclosure, this outcome was not completely surprising because this group of mostly seniors have not been the strongest academic students that CHD has had over the years. Two of these students were able to get into the course on Workday without the needed prerequisites and two of the 7 failed the course.

**Changes to be Made Based on Data:**

This signature assignment is an effective tool for measuring this learning outcome. This article critique entails students critically evaluating both nonprofessional and peer-reviewed documentation. This particular signature assignment will be carefully explained and will use modeling to help students to see the depth that is expected and the importance of articulating the issue at hand.

compilation of criterion from the AAC&U Critical Thinking and Information Literacy rubrics

	<b>Capstone (4)</b>	<b>Milestones (3)</b>	<b>Milestones (2)</b>	<b>Benchmark (1)</b>
<b>Explanation of Issues (Critical Thinking )</b>	Issue/problem to be considered critically is stated clearly and described comprehensively, delivering all relevant information necessary for full understanding.	Issue/problem to be considered critically is stated, described, and clarified so that understanding is not seriously impeded by omissions.	Issue/problem to be considered critically is stated but description leaves some terms undefined, ambiguities unexplored, boundaries undetermined, and/or backgrounds unknown.	Issue/problem to be considered critically is stated without clarification or description.
<b>Use Information Effectively to Accomplish a Specific Purpose (Information Literacy )</b>	Communicates, organizes and synthesizes information from sources to fully achieve a specific purpose, with clarity and depth..	Communicates, organizes and synthesizes information from sources. Intended purpose is achieved.	Communicates and organizes information from sources. The information is not yet synthesized, so the intended purpose is not fully achieved.	Communicates information from sources. The information is fragmented and/or used inappropriately (misquoted, taken out of context, or incorrectly paraphrased, etc.), so the intended purpose is not achieved.
<b>Influence of Context and Assumptions (Critical Thinking )</b>	Thoroughly (systematically and methodically) analyzes own and others' assumptions and carefully evaluates the relevance of contexts when presenting a position.	Identifies own and others' assumptions and several relevant contexts when presenting a position.	Questions some assumptions. Identifies several relevant contexts when presenting a position. May be more aware of others' assumptions than one's own (or vice versa).	Shows an emerging awareness of present assumptions (sometimes labels assertions as assumptions). Begins to identify some contexts when presenting a position.
<b>Conclusions and Related Outcomes (implication and consequences) (Critical Thinking)</b>	Conclusions and related outcomes (consequences and implications) are logical and reflect student's informed evaluation and ability to place evidence and perspectives discussed in priority order.	Conclusion is logically tied to a range of information, including opposing viewpoints; related outcomes (consequences and implications) are identified clearly.	Conclusion is logically tied to information (because information is chosen to fit the desired conclusion); some related outcomes (consequences and implications) are identified clearly.	Conclusion is inconsistently tied to some of the information discussed; related outcomes (consequences and implications) are oversimplified.

**PLO Data for Child and Adolescent Development (CHAD)  
2023-2024**

**Learning Outcome PLO 3:**

Identify and assess scientific research evaluating current evidence-based research related to child and adolescent development.

**Outcome Measure:**

CHD3055 Research Paper. Students will formulate a question to address an issue that affects children or families of children with special needs. Students will then research their question, find a minimum of five peer reviewed articles or books published within the last three years, and summarize findings and address the question asked. Students will complete an annotated bibliography of all research materials found.

**Criteria for Success (if applicable):**

80% of students will score a three or higher on each criterion of the four-point CHD3055\_Research Paper Rubric.

**Aligned with DQP Learning Areas (circle one or more but not all five):**

**Conclusions Drawn from Data:**

The criteria of 80% scored in mastery or proficiency in each category was met with the exception of evaluate information at 77%. Define Problem 87%, Use Information Effectively 90%, Identify Strategies 94%, Problem Solutions/Hypothesis 81%, Access and Use Information 90%. This year only the CHD majors were assessed which included 16 students. This was assessed by two assessors that calibrated together before they assessed.

One of the conclusions that came was in the assessing this assignment. The assessors noticed that four students had a more challenging time with APA formatting and how to write a research paper. It was discovered that these four students had a common denominator. None of them had taken CHD 1020 – Child and Adolescent Development at PLNU. In that course the students are introduced by the professor and library faculty how to write a research paper. It is scaffolded with many drafts. That discovery was encouraging because the department is very intentional in introducing, developing, and mastering evaluating and writing evidence-based research related to Child Development with the help of library faculty.

**Changes to be Made Based on Data:**

To continue to work with library faculty giving students effective strategies for evaluating and collecting peer-reviewed resources. This scaffolding included understanding how to properly cite, search and the use of APA format. It is important that this scaffolding is very intentional and developed throughout the program. The recommendation will be to continue to scaffold each aspect of this signature assignment. Spring 2025, we will incorporate turning in a draft and a consultation with the professor if needed.

**Learning Outcome PLO 4:**

Evaluate the effects of society and culture upon the family microsystems, family types, and the subsequent macro systems within which they co-exist.

**Outcome Measure:**

CHD3013 and CHD3003: Critique of social issues book: Each student will write a 4 to 6-page written report on a current social issues book from an approved research list. The written report should include a summary and critique of the social issue addressed and also should include the students' personal reflections pertaining to the issues addressed. Beginning Fall 2019, assessed every other fall using the AAC&U Information Literacy Value Rubric (in place of the AAC&U Critical Thinking Value Rubric).

**Criteria for Success (if applicable):**

80% of students will score a three or higher on each criterion of the four-point AAC&U Information Literacy Rubric

**Conclusions Drawn from Data:**

The criteria of 80% scored in Mastery or Proficiency was achieved in each section with the exception at 64% Access and Use Information. Determine Extent of Information 92%, Access Needed Information 85%, Evaluate Information/Sources 82%. This signature assignment has students critique a social issues book from an approved research list. Consistently Access and Use Information has been difficult task to score in the Mastery level. Fall 2023 was the lowest with 33% at the Developing level. CHD 3013/3003 are offered every other year and the signature assignment will remain for PLO 4 CHD 3003 – Infant and Toddler Development CHD 3013 – Adolescent Development. CHD 3003 – Infant and Toddler Development will be offered Fall 2024. These courses are alternated each fall.

**Changes to be Made Based on Data:**

When introducing this signature assignment, a focus on citing and referencing will be highlighted. A clinic will be provided for students that self-identify needing more guidance in this area.

**Conclusions Drawn from Data:**

80% criteria were not met in Fall 2023. Analysis of Vocation 75%, Synthesis of Faith 63%. This assessment is a cohort of 4 Child Development seniors. The professor of this course was different, both fall and spring because the usual professor was on partial sabbatical for the year. The professor shared with the chair the challenge of guiding student synthesis of faith in both personal philosophy and code of ethics. The professor adapted the advice and incorporated the change in spring 2024. Spring 2024 80% criteria was met in all categories.

**Changes to be Made Based on Data:**

To continue to scaffold development with their professional statements. This includes professional philosophy and personal code of ethics. Starting Fall 2020, from recommendations from assessment, two mandatory consultations with faculty were added to the course, first in beginning draft and then last draft of Code of Ethics and Professional Philosophy. This practice of two consultations on professional statements is now part of the fabric of this course. Fall 2024 and spring 2025, will continue

to articulate how faith can be intertwined into their professional statements and philosophies. However, the department wants to focus on the authentic synthesis of faith of who they are and not write what they think we want them to write.
